

## **Barry Hubbard, Principal Consultant**

Barry is a retired Naval Officer, retiring as the CIO for the Submarine Force in the Pacific Fleet after 24 years sailing Submarines around the globe. His expertise in IT began early in his career through analysis of technical issues and helping formulate proven results with positive outcomes. Hubbard specializes in Infrastructure and Design with a focus on Merger and Acquisition (M&A), Networks, Systems and Storage.

Barry has worked with Telecom and Entertainment Tech companies providing senior leadership while building significant relationships and records of success as these industries developed and blossomed technologically.

Recent successes have been attributable to Barry:

- Lead Principal Consultant, M&A for two Cloud Companies
- Datacenter relocation and consolidation for a top ten US Bank
- Lead Design of Cloud transition for a large healthcare company
- Lead multiple M&A's for TiVo Inc.
- Oversight of multiple datacenters for TiVo Inc.
- Offshoring Ops support multiple companies

Barry holds a BS from the United States Naval Academy in Annapolis, MD and an MS in MIS Management from the US Naval Post Graduate School in Monterey, CA.

When Barry isn't doting on his family and grandkids, he is an avid golfer and enjoys solving problems in the wide-open spaces of the worlds golf courses.
